About Us

The National MLTSS Health Plan Association

The National MLTSS Health Plan Association is a national association of the leading managed care organizations (MCOs) that deliver high-value, quality managed long-term services and supports (MLTSS) for state Medicaid programs and beneficiaries. Association members also operate Integrated Plans for dually eligible beneficiaries.

Representing the Full Range of MLTSS and Integrated Plans

Association members represent the spectrum of MLTSS health plans, including large, national MCOs with MLTSS contracts in multiple states and regional and community-based MCOs, both for-profit and non-profit. Member plans enroll over 1,100,000 Medicaid and dually eligible beneficiaries in MLTSS and Integrated Plans across 22 states.

Member organizations

Aetna Inc., AmeriHealth Caritas, Anthem, Centene Corp., Commonwealth Care Alliance, Includa, Inc., L.A. Care Health Plan, Lakeland Care, Molina Healthcare, UPMC Health Plan, and VNSNY CHOICE Health Plan.

Partnership Program

Members of our Partnership Program have unique access to our member health plans and opportunities to engage in several levels. Our flexible Program begins with your entry as a Primary Partner and offers additional opportunities through Market Leadership, Educational and Networking Partnerships.

From companionship to personal care to home health, palliative care and hospice, Addus HomeCare's services are designed to keep clients safe and independent in their own homes. Through our many operating brands including Addus, Arcadia, Ambercare and Hospice Partner of America, we provide In Home Support Services, Homemaker, Personal care, Attendant care, Respite, Transportation, Chore/Housekeeping, Home Health, Palliative Care Hospice and Family Support Services. Over the past forty years, Addus' demonstration of quality has resulted in a steady pattern of growth in government, commercial, managed care/ MLTSS contracts as well as private pay services. Today we serve over 60,000 people annually in 27 states through our more than 40,000 dedicated employees.

Utilizing high-touch, home-based resources supported by technology, we can provide real-time information to the health plan and health care providers ensuring early detection and intervention of disease exacerbation that would otherwise result in expensive admissions to acute and long-term care facilities. Our continuum of services allows our clients to remain in their own home as they age or progress in their disease avoiding facility placement and our unique home care programs allow Addus to work with MLTSS plans in alternative payment and value-based arrangements.

Aerial™ is the flagship solution from Medecision, delivering the best customer experience in integrated health management for consumers and their care teams. By providing a 360-degree, shareable, near-real time view of an individual's comprehensive health status, Aerial gives every stakeholder the insights and action plans needed to reduce risk, enhance efficiency and improve health outcomes. Built-in interoperability allows for automated updates from a variety of data sources, along with actionable intelligence unsurpassed by legacy EMR, financial or claims systems. The Aerial Experience means providing value to risk-bearing organizations across the board: clinical outcomes and quality measurement, streamlined deployment, proven pre-configured workflows, social-mobile applications, and more. Experience Aerial today at aerialhealth.io.

BAYADA Home Health Care was founded by J. Mark Baiada in 1975 and provides nursing, rehabilitative, therapeutic, hospice and assistive care services to children, adults and seniors in the comfort of their homes. Headquartered in the Greater Philadelphia suburbs based in New Jersey, BAYADA employs more than 30,000 nurses, home health aides, therapists, medical social workers and other home health care professionals who serve their communities in 23 states from more than 360 locations, with locations in Germany, India, Ireland, New Zealand and South Korea.

In 2018, Baiada oversaw the company's unprecedented transition to a nonprofit organization to ensure BAYADA's mission, purpose and business model would endure, and to help BAYADA realize its vision of helping millions of people worldwide experience a better quality of life at home; in early May 2019, the organization served its one millionth client.

CONNECTING PEOPLE
WITH CARE

Coordinated Transportation Solutions, Inc. (CTS) has been partnering with health plans and government agencies to implement customized transportation solutions for Medicaid and Medicare Members since 1997. As a non-for-profit 501(c)(3), our company is 100% customer-focused and aligned with healthcare goals. We work closely with both the medical and social services community to enhance Member's medical outcomes, and our teams of professionals are empowered to manage Member transportation benefits using innovative service delivery models. These core values help create both quality of life and financial value for our customers and their Members.

Headquartered in St. Petersburg, Fla., GA Foods has been preparing and delivering meals to older adults since 1973. GA Foods is committed to providing a cost-effective solution for health plans to provide healthy meals for Medicare and Medicaid enrollees.

Approximately 87% of older adults have a chronic disease, such as heart disease, stroke, cancer, type 2 diabetes, and arthritis. Chronic disease management is one of the most critical and challenging problems in healthcare today. It is estimated that 40% of those with chronic illness are malnourished. But there is good news – and that is proper nutrition can play a role in helping those to improve their lives.

We take pride in nourishing your members with care and respect. Our products are marketed under the SunMeadow® brand name and are available nationwide. All of our SunMeadow® meals are made with fresh, high-quality ingredients, and are designed to meet or exceed federal and state regulatory standards and recommendations.

Working side by side to help your members.

Business is becoming increasingly unpredictable. The pressure to satisfy competing priorities has intensified. How do you continue to improve clinical outcomes and drive member satisfaction while cutting costs? How can you help your case managers stay engaged?

Now more than ever you need a high-value partner who understands your challenges and has the power to help solve them. From our portfolio of 350,000 medical supplies used across the healthcare continuum, to educational resources for case managers and members, our experts work side-by-side to build the solutions to meet your goals.

Public Partnerships | PPL works with your eligible Medicaid members who want to self-direct their services and supports. When your case managers and members agree on self-direction, we provide financial services, the latest tools and technology to help members manage their budget and pay their direct care/support workers and withhold taxes on their behalf. Our services cover the self-direction journey—from pre-enrollment through ongoing compliance—and we provide responsive customer service every step of the way. We also provide custom data analysis and reporting capabilities, so that you can effectively track and measure the success of your programs, and protect against fraud, abuse, and waste.

PopHealthCare, a GuideWell Company, is leading the effort to reimagine how healthcare is delivered. Delivering services to over 24 clients in 15 states, we offer a full integrated approach to care delivery, risk adjustment, and quality enhanced.

Our three product suites include CareSight, Insight, and RiskSight.

CareSight is a physician-led technology enabled modern-day house call program for individuals with complex needs offering longitudinal care that includes medical, behavioral, palliative, and social support.

InSight features our in-home assessments that provide a comprehensive medical checkup with point of care testing and a review of social determinants of health. These assessments facilitate the closure of care gaps, support risk adjusted reimbursement, assist with referrals to social support services, and create detailed and actionable follow-ups for the member, their PCP, and their health plan.

RiskSight, our end-to-end retrospective risk adjustment services, provides revenue accuracy by delivering comprehensive review of medical records and capturing incremental Hierarchical Condition Categories (HCCs).
