

**National MLTSS Health Plan Association:
Partnership Program Members**

2021

National
MLTSS
Health Plan Association

About Us

The National MLTSS Health Plan Association

The National MLTSS Health Plan Association is a national association of the leading managed care organizations (MCOs) that deliver high-value, quality managed long-term services and supports (MLTSS) for state Medicaid programs and beneficiaries. Association members also operate Integrated Plans for dually eligible beneficiaries.

Representing the Full Range of MLTSS and Integrated Plans

Association members represent the spectrum of MLTSS health plans, including large, national MCOs with MLTSS contracts in multiple states and regional and community-based MCOs, both for-profit and non-profit. Member plans enroll over 1,100,000 Medicaid and dually eligible beneficiaries in MLTSS and Integrated Plans across 22 states.

Member organizations

Aetna Inc., AmeriHealth Caritas, Anthem, Centene Corp., Commonwealth Care Alliance, Includa, Inc., L.A. Care Health Plan, Molina Healthcare, UPMC Health Plan, and VNSNY CHOICE Health Plan.

Partnership Program

Members of our Partnership Program have unique opportunities to engage in several levels. Our flexible Program begins with your entry as a Primary Partner and offers additional opportunities through Market Leadership, Educational and Networking Partnerships.

Altruista Health delivers care management and population health management solutions that support value-based and person-centered care models. Altruista's GuidingCare technology platform integrates care management, care coordination and quality improvement programs through a suite of sophisticated yet easy-to-use web applications.

GuidingCare is the largest and most widely adopted platform of its kind in the United States. Altruista Health has grown into a recognized industry leader with national and local honors in the media and by tech councils. Health plans and healthcare providers use GuidingCare to transform their processes, reduce avoidable expenses and improve patient health outcomes.

BAYADA Home Health Care has a special purpose—to help people have a safe home life with comfort, independence, and dignity. BAYADA Home Health Care provides nursing, rehabilitative, therapeutic, hospice, and assistive care services to children, adults, and seniors worldwide. We care for our clients 24 hours a day, 7 days a week.

Families coping with significant illness or disability need help and support while caring for a family member. Our goal at BAYADA is to provide the highest quality home health care services available. We believe our clients and their families deserve home health care delivered with compassion, excellence, and reliability, our BAYADA core values.

CareCentrix is the leader in health-at-home solutions and is committed to making the home the center of care.

Managing care for 17.5 million members, CareCentrix' mission is to help more patients heal and age at home. By drawing on insights from proprietary analytics, and connecting end-to-end clinical, social and caregiver services, CareCentrix optimizes service allotments, eliminates unnecessary hospital readmissions, closes gaps in care, and reduces fragmentation. And ultimately, to help more people live, heal, and age at home.

Headquartered in St. Petersburg, Fla., GA Foods has been preparing and delivering meals to older adults since 1973. GA Foods is committed to providing a cost-effective solution for health plans to offer healthy meals for Medicare and Medicaid enrollees.

Approximately 87% of older adults have at least one chronic disease, such as heart disease, stroke, cancer, type 2 diabetes, and arthritis. Chronic disease management is one of the most critical and challenging problems in healthcare today. It is estimated that 40% of those with chronic illness are malnourished. GA Foods provides medically-tailored meals that focus on diseases with the highest health care utilization rates.

We take pride in nourishing your members with care and respect. Our products are marketed under the SunMeadow® brand name and are available nationwide. Our SunMeadow® meals are made with fresh, high-quality ingredients and are designed to meet or exceed federal and state regulatory standards and recommendations.

Public Partnerships | PPL works with your eligible Medicaid members who want to self-direct their services and supports. When your case managers and members agree on self-direction, we provide financial services, the latest tools and technology to help members manage their budget and pay their direct care/support workers and withhold taxes on their behalf.

Our services cover the self-direction journey—from pre-enrollment through ongoing compliance—and we provide responsive customer service every step of the way. We also provide custom data analysis and reporting capabilities, so that you can effectively track and measure the success of your programs, and protect against fraud, abuse, and waste.

HELIOS® by VirtualHealth is the first comprehensive care management platform purpose-built to power the entire ecosystem of care. HELIOS® fuels its epicenter and powers the entire care continuum through intelligent case and disease management workflows, driving resource optimization through unmatched data integration, broad-spectrum collaboration, innovative patient engagement, and configurable analytics and reporting. The industry-leading care management and utilization management platform enables unparalleled collaboration and coordination with the member and their care team and provides broad visibility across the healthcare organization. The back-end complexity is balanced by the cleanest and most intuitive front-end interface on the market.

Today, HELIOS® is utilized by some of the most innovative health plans in the country, including several MLTSS Association Plans, to manage millions of members. Named one of the fastest growing companies in North America by Deloitte in 2018 and 2019, VirtualHealth empowers healthcare organizations to achieve enhanced outcomes, while maximizing efficiency, improving transparency, and lowering costs.

VirtualHealth is committed to helping clients optimize their integrated care management programs, achieve and maintain compliance, improve care coordination, drive operational efficiencies, and create better health outcomes.
